

## Sharing Reports from the Advantage Acre® Scouting App

In addition to the automatic upload to Advantage Acre, a Scouting Report can be emailed to others involved with the operation, (partners, dealer, landlords, agronomists) as soon as the scouting trip is finished.

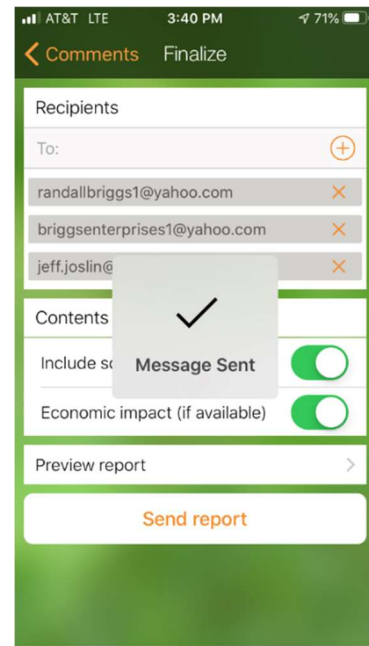

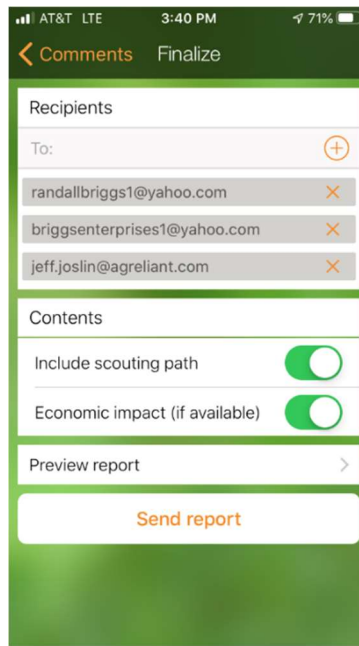

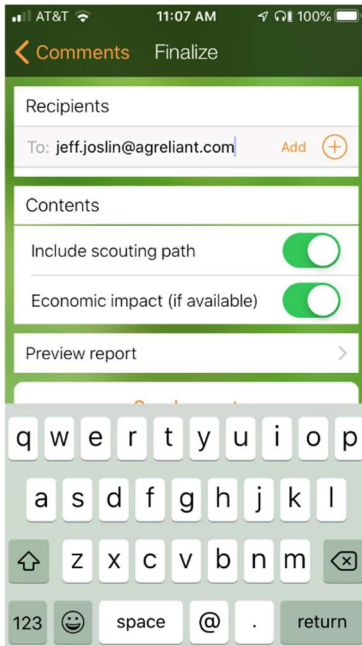

- To share a Scouting Report, **tap** on the **Menu icon** in the top left corner, then **tap Reports**, then **tap Report** in top right corner, **then select the Report(s)** you wish to share, then **tap on Continue** in top right corner.

- Add any Overall comments, and/or Activity comments, then tap Continue, then enter recipient email addresses, or tap (+) to use Contacts email addresses. (Opens Contacts)**

3. After **entering** recipient addresses, **tap Add** to add the addresses (address in gray box moves down from To: line), **tap on Send report**, and **confirm Message Sent**.

4. The Scouting Report shares the trip path, stops (with times), pictures, and notes.
